

Blog Tracker Application

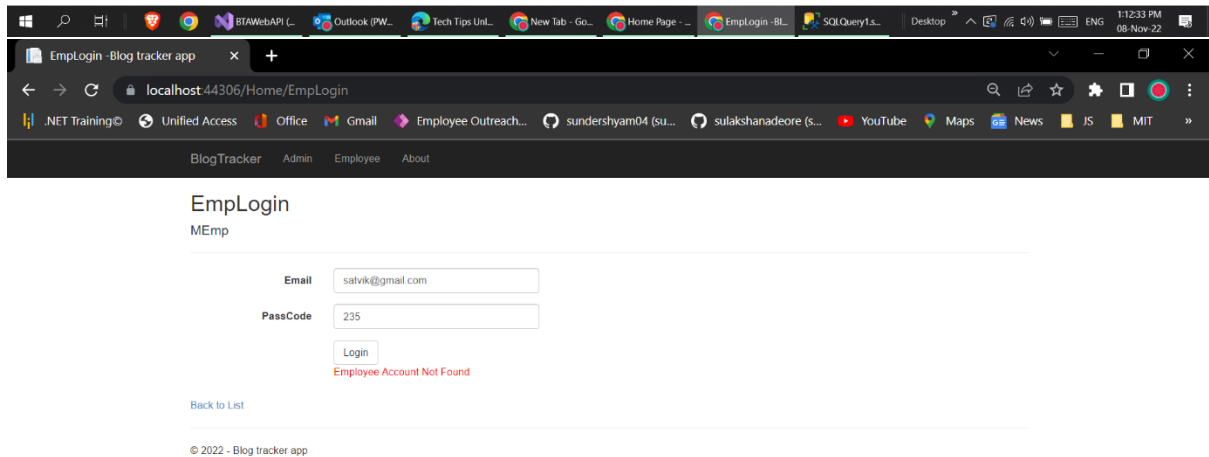

Contains : admin login -> empdetails -> creating new employees

Employee login -> blogs of those employees -> new blogs create

Home page -> list of all blogs

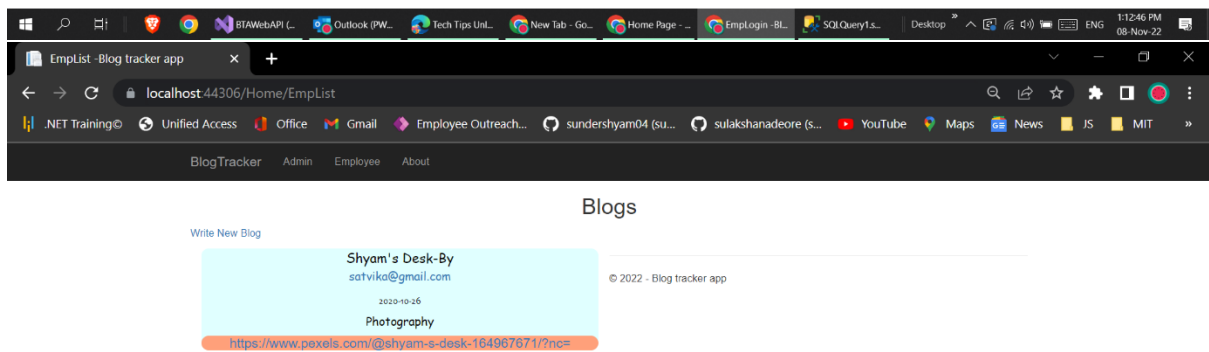

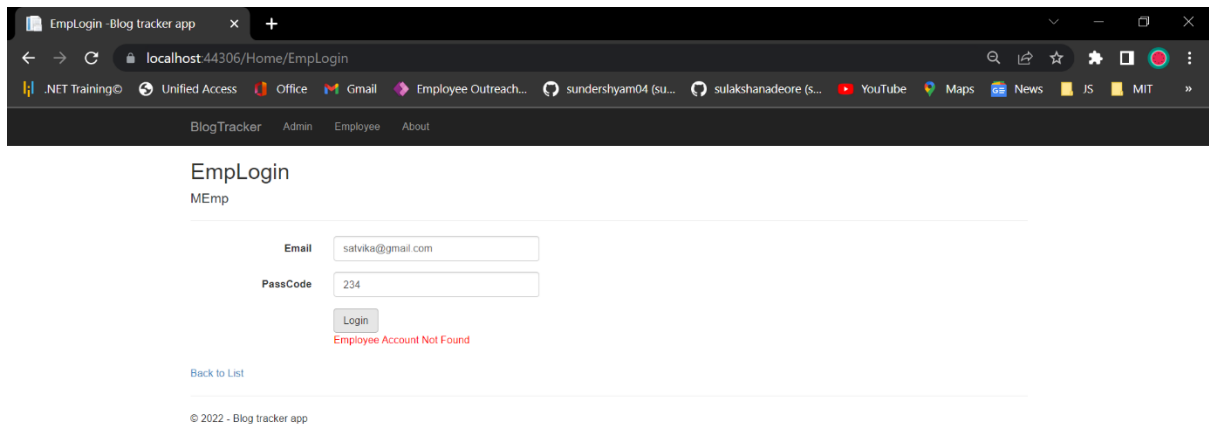

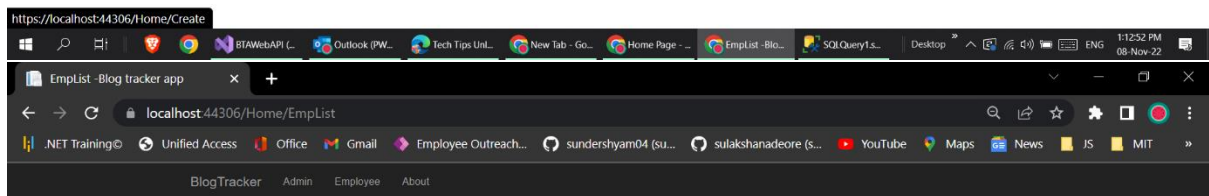

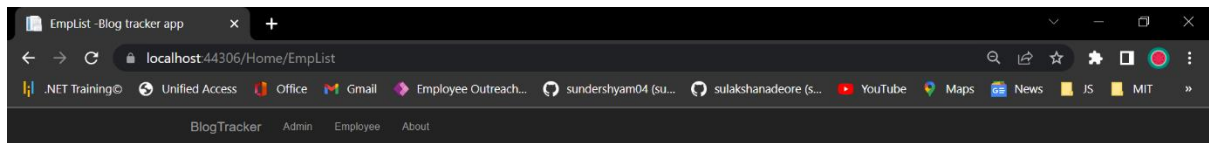

The screenshot shows a web browser window with the URL `localhost:44306/Home/EmpLogin`. The page title is "EmpLogin" and the sub-header is "MEmp". There are two input fields: "Email" with the value "satvika@gmail.com" and "PassCode" with the value "235". A "Login" button is present. Below the button, a red error message reads "Incorrect Paasword". A blue link "Back to List" is at the bottom left. The footer says "© 2022 - Blog tracker app". The browser's address bar and tabs are visible at the top.

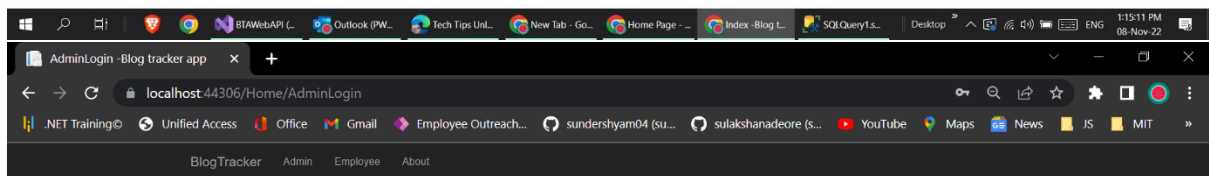

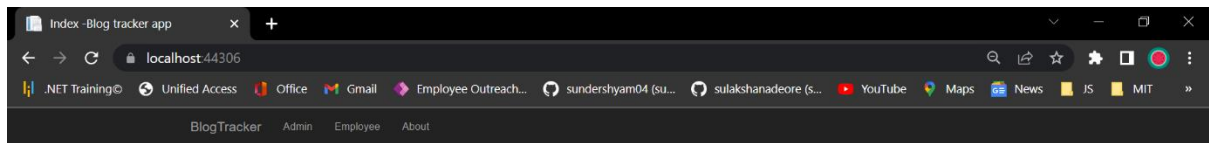

This screenshot is similar to the one above, but the red error message below the "Login" button reads "Employee Account Not Found". The browser window and page layout are identical to the previous screenshot.
